Archeological Technician/Archeological Aid JOBS!

*******Apply online usajobs.gov*******

Online Application Period Opens Soon, Don't Miss Out!
Opens Monday, November 30th, closes Monday, December 7, 2015
Job Offers will be made in February/March 2016

Two Ranger Districts on the Forest will be hiring four person archeological field crews for summer field work. It is advisable to call the contact person listed to gain any other information and a more complete description of the duties, along with probable length of the work season. All positions are temporary not to exceed six months.

ABOUT THE FOREST: The Okanogan-Wenatchee National Forest encompasses over 4 million acres in Washington state and stretches north to south from the Canadian border to the Goat Rocks Wilderness – a distance of about 180 miles. The forest lies east of the Cascade Crest, which defines its western boundary. The eastern edge of the forest extends into the Okanogan highlands, then south along the Okanogan and Columbia Rivers, and down into the Yakima River Valley. Because of this wide geographic range, the forest is very diverse – from the high, glaciated alpine peaks along the Cascade Crest and the numerous mountain ranges extending eastward from the crest, through deep, lush valleys of old growth forest, to the dry and rugged shrub-steppe country at its eastern edge. For additional information visit our web site <http://www.fs.fed.us/r6/wenatchee/>

Archaeology – Over 3000 sites have been recorded on the forest. Site types include pre-contact villages, seasonal camps, rock art; historic homesteads, mines, refuse scatters and railroads.

It is advisable to call the contact person listed to gain any other information and a more complete description of the duties, along with probable length of the work season. All positions are temporary, seasonal work, not permanent career positions. Pay rates vary based on the positions. **You must apply online, by the deadlines listed above.**

Naches Ranger District- Naches, WA

Archeology Technician GS-0102-07 (This is crew chief position)

This position will lead a four person archeological field crew for inventory of large acreage restoration projects on up to three ranger districts (Naches, Cle Elum and Wenatchee River). This position requires experience using a compass, GPS unit, doing archeological survey, archeological site documentation, shovel testing and making recommendations used in determinations of effect and site eligibility. GIS experience is desired but not required. A GS-9 Archeologist will supervise the position. Please contact Powys Gadd at 509-664-9394 or pgadd@fs.fed.us for specific details about this position. **Housing is available** at the Chinook Pass Work Center for a minimal fee which will be deducted from the employee's pay check. For work away from the duty station, per diem for camping or hotel accommodations will be available depending on the work schedule.

Archeology Technician GS-0102-05

This crew position will join a four member archeological field crew for inventory of large acreage restoration projects on up to three ranger districts (Naches, Cle Elum and Wenatchee River). This position requires experience using a compass, GPS unit, doing archeological survey and site documentation. GIS experience is desired but not required. A GS-7 Archeology Technician will lead the crew with supervision by a GS-9 Archeologist. Please contact Powys Gadd at 509-664-9394 or pgadd@fs.fed.us for specific details about this position. **Housing is available** at the Chinook Pass Work Center for a minimal fee which will be deducted from the employee's pay check. For work away from the duty station, per diem for camping or hotel accommodations will be available depending on the work schedule.

Archeological Aid GS-0102-03

Two positions are open. This crew position will serve on a four person archeological crew conducting surveys for large acreage restoration projects on up to three ranger districts (Naches, Cle Elum and Wenatchee River). Duties involve recognizing signs of past human activity and assisting with field inventory and archaeological site recording. The employee will receive training in the use of a compass, GPS, field inventory and site recording. A GS-7 Archeological Technician will lead the crew with supervision by a GS-9 Archeologist. Please contact Powys Gadd at 509-664-9394 or pgadd@fs.fed.us for specific details about this position. **Housing is available** at the Chinook Pass Work Center for a minimal fee which will be deducted from the employee's pay check.
